## ***Who will you be working for?***

### ***About CROMSOURCE***

CROMSOURCE is a family-owned international, full-service Contract Research Organisation that, since 1994, has been supporting our clients with outstanding clinical research and staffing solutions services. The successful growth of CROMSOURCE has been achieved by putting high quality and client focus at the heart of everything we do.

### ***Our Company Ethos***

Our employees are the most valuable company asset. We value our resources and ensure they work in a friendly, family environment so they can develop their skills and talents. Human Resources is the fulcrum around which all CROMSOURCE activities are built, and close management and training is the core instrument to develop and maintain highly-qualified personnel. The continuous training keeps the resources qualified in terms of competence and expertise and gives all personnel the clear tools needed to manage both internal and client processes with the same methodology. The success of these core values is evidenced by our below industry average turnover rates.
